

Shrink Wrap, Banknote Banding & Coin Counting Equipment

A quick-reference guide to the equipment Reigneth Company Limited supplies, installs, and maintains for banks and businesses across Ghana. For pricing, availability, or a site visit, get in touch — contact details are on the last page.

Shrink Wrap Machines

High-quality shrink wrap machines designed to protect products efficiently. Installation, repairs, and routine maintenance included.

Ladypack Shrink Wrap Machine

Compact, angular packaging machine with a 90° heating oven, for PVC, Polypropylene, Polyolefin, or Polyethylene film.

- Impulse sealing system for centre-folded roll film
- Nickel-chrome blade cuts and seals the film
- Motorized conveyor belt feeds items into the shrink tunnel
- Shrink tunnel heated by armored heaters

Adpak / Smipack SL Series

Entry-level L-sealing hood packer for clear-cut market segments, keeping most of the features of the S series at a lower output.

- Two models available (SL45, S560N / S560NA)
- Outputs of up to 300 packs/hour

Shrink Wrap Films

Packaging films made from PVC, Polyolefin, or Polyethylene, providing a tight, secure seal that resists tampering and transit damage.

- Available in various thicknesses and sizes depending on product requirements

Banknote Banding Machines

Advanced bank note banding machines supplied and maintained for banks across Ghana, for secure and efficient currency handling.

Akebono OB-360 Banding Machine

Arch-style tabletop machine applying 28mm-wide paper bands around small bundled items; suited to low-volume requirements.

- Up to 30 banding cycles per minute
- Bands packages from 30mm × 10mm up to 420mm × 210mm
- Works with paper or film tape, no parts change needed
- New track design supports 60-micron film, reducing cost and waste
- Optional large dispenser available

Mabas SBM-90 Banding Machine

Heavy-duty automatic banknote banding machine from Mabas Electronics, with an integrated ink-jet band printer.

- Prints bank name, branch name, operator name and date across 4 lines
- 3 lines are operator-configurable (20 characters each)
- Date/time line is system-generated and cannot be edited
- Easy, quick, reliable and productive in daily use

Coin Counting Machines

Coin 100 / 120

Portable, cost-effective single-denomination coin counter from G+D, ideal for gaming, vending, or banking use.

- Processes large quantities of pre-sorted denominations swiftly and accurately
 - Simple double-dial setup for direct thickness and diameter adjustment
 - Continuous counting — can be fed while in operation
-

Why Choose Reigneth?

- **Quality products** — sourced from reputable manufacturers for durability and reliability
- **Expert maintenance** — skilled technicians keep equipment in optimal condition
- **Customer-centric approach** — tailored solutions and prompt support to minimize downtime
- **Nationwide coverage** — Southern and Northern Zone technician teams serve clients across Ghana
